Course: B.Tech (CSIT), First Year

College: Symbiosis University of Applied Sciences

Submission Date: 01-06-2026

Assignment Overview

This report contains the submission for Day 1 of the MERN Stack Internship.

The assignment focused on understanding modern JavaScript (ES6+), data manipulation techniques, and responsive front-end development using HTML and CSS.

Tasks Completed:

- Task 2.1 – Algorithmic Scripting
- Task 2.2 – Responsive User Profile Card

Task 2.1 – Algorithmic Scripting

Objective

The objective of this task was to work with a mock JSON dataset and perform data parsing, filtering, cleaning, and transformation using modern JavaScript concepts. I cleaned the given JSON file data with the constraints taken as if user is above 18 or not and user is active or not.

Features Implemented

- JSON Parsing
- User Filtering

- Data Cleaning
- Template Literals
- Array Methods (filter, map)
- Object Destructuring
- Spread Operator
- Summary Generation

Output Screenshot

```
D:\Insta_dot_internship\Assignments\ChayanSoni_MERNStack_Day1_Submission>node task2_1.js
Original Data:
[
  {
    id: 1,
    name: ' Chayan Soni ',
    email: 'chayan@gmail.com',
    age: 19,
    active: true
  },
  {
    id: 2,
    name: ' Rahul Sharma ',
    email: 'rahul@gmail.com',
    age: 17,
    active: true
  },
  {
    id: 3,
    name: ' Priya Singh ',
    email: 'priya@gmail.com',
    age: 22,
    active: false
  },
  {
    id: 4,
    name: ' Aman Verma ',
    email: 'aman@gmail.com',
    age: 21,
    active: true
  }
]

Summary:
Total Users: 4
Valid Users: 2

Cleaned User Records:
[
  { id: 1, name: 'Chayan Soni', email: 'chayan@gmail.com' },
  { id: 4, name: 'Aman Verma', email: 'aman@gmail.com' }
]

Task 2.2 – Responsive User Profile Card

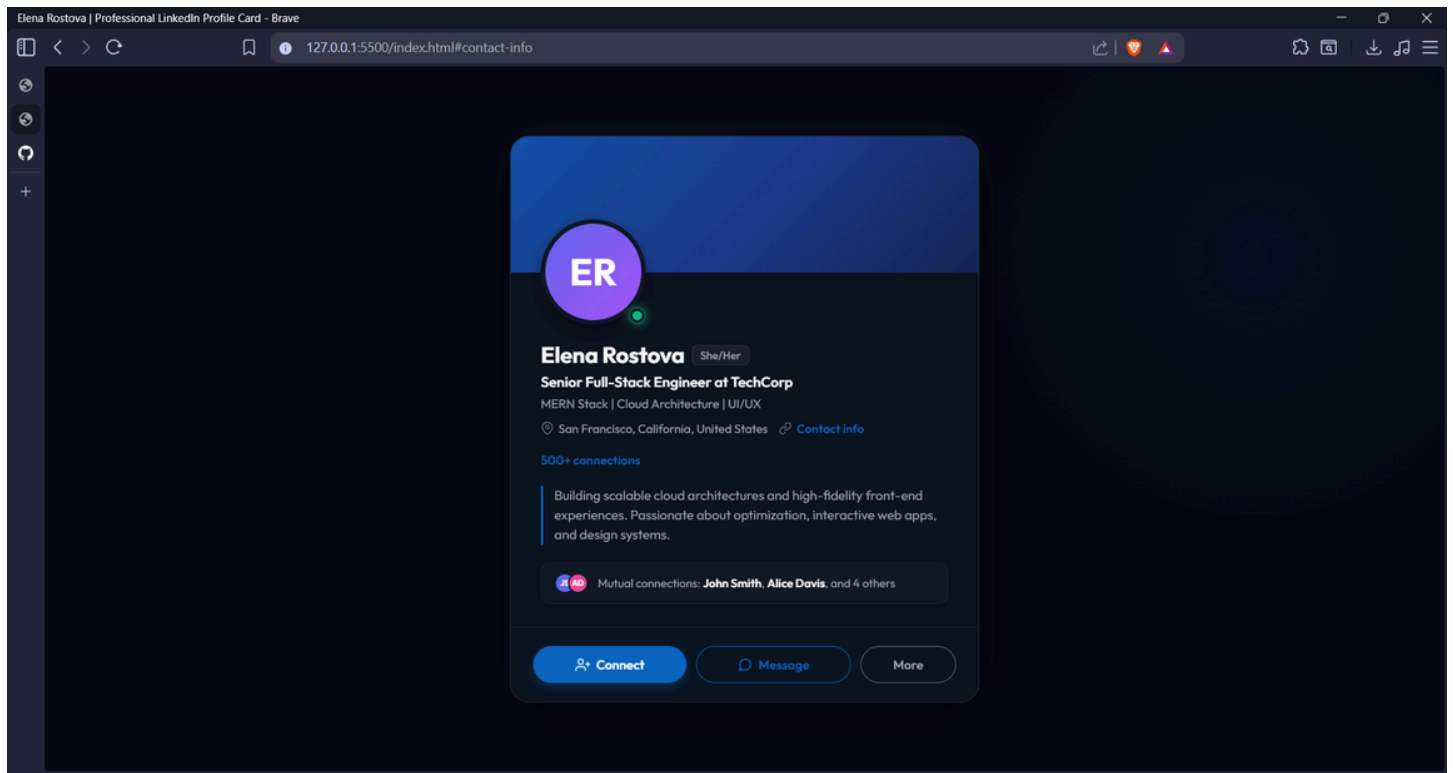

Objective

The objective of this task was to design and develop a responsive user profile card using HTML and CSS that adapts properly to different screen sizes.

Features Implemented

- Semantic HTML Structure
- CSS Variables
- Responsive Layout
- Flexbox
- Mobile-Friendly Design
- Interactive Styling

Learning Outcomes

Through this assignment, I gained practical experience in:

- Working with JSON data
- Using modern JavaScript ES6+ features
- Data filtering and transformation
- Building responsive user interfaces
- Project organization and documentation
- Using Git and GitHub for version control

Conclusion

Both assigned tasks were completed successfully and tested.

This assignment helped me understand the fundamentals of JavaScript data processing, responsive web design, project organization, and version control practices that are commonly used in modern web development.
